FOR Dream & Denim

Scan here to meet Dream & Denim!

When Royetta was pregnant, she had weekly appointments at OCH's Maternal Fetal Medicine Center to treat her CMV and fluid in her womb. She was eventually induced at 36 weeks, giving birth to twins Dream & Denim!

Two months later, Royetta noticed that Dream was not achieving milestones appropriate for her age. She brought Dream back to OCH, where doctors found excessive fluid on her brain. Dream was immediately enrolled in physical and occupational therapy.

Today, Dream and Denim utilize multiple services at OCH as they continue to soar!
